SUPPLEMENTAL BID FORM
FOR STREETS, DRAINAGE AND UTILITY CONSTRUCTION

INSTRUCTIONS-All quoted prices for equipment, labor, road materials (liquid asphalt, oil, hot mix products), gravel aggregates and pipe must be listed in the appropriate column.

Outside of bid envelope must be labeled with the description of the ITEM/ITEMS being bid

Questions or Comments may be directed to the Garland County Judge Darryl Mahoney at 501-622-3604.

EQUIPMENT-Hourly rates for the following equipment shall include fuel, repairs, transportation, lubrication, insurance and other expendable items (such as blades, bits, tips, points, etc.) normally included with the operation of said equipment.

- a) Equipment to be billed for actual hours used.
- b) Labor to be billed for one way travel and actual time worked.

MATERIAL-The County may furnish the material (pipe, concrete, gravel, etc.) for the project. The County may, however, want Contractor to furnish the material. In this regard, each bidder is to show the percentage markup on his cost from the supplier to the County. Contractors will be required to provide copies of the invoice for their supplier to them on request.

NOTICE

Sealed bids will be received in the Garland County Judge's Office until 10 a.m. on Monday, March 11, 2019 on the following materials for road construction and maintenance:

Corrugated Metal Pipe
Concrete Pipe
Arch Metal Pipe
Corrugated Exterior Plastic Pipe with Smooth Interior
Liquid Asphalt
Hot Mix Products
Gravel Aggregate Products
Equipment and Labor

These bids will be good for at least 12 months, except for oil and oil-based products. Quoted prices for oil and oil-based products will be based on current refinery prices. Increases or decreases at the refinery will be passed on to the county along with verification from the refinery of charges. Any bid subject to a surcharge based on the rising cost of manufacturing materials such as steel, fuel costs, etc. must so state in bid.

Outside of bid envelope must be **LABELLED WITH DESCRIPTION OF ITEM(S) BEING BID.**

Specifications and instructions are available from the Garland County Judge, 501 Ouachita Ave., Room 210, Hot Springs, AR 71901

Garland County reserves the right to reject any and all bids or a portion thereof.

**SPECIFICATIONS
FOR ROAD AND DRAINAGE CONSTRUCTION**

PURPOSE- Garland County requests bids to provide construction equipment and personnel on an "as needed" basis to do small jobs and to provide assistance during disaster relief. For the purpose of this proposal, a definition of small jobs is limited to jobs with an expected cost of less than \$20,000; however, emergency jobs exceeding this limitation may be accomplished in accordance with procedures for emergency purchases by the authorizing procurement an Informing the Quorum Court at the next meeting.

SCOPE- At times, the contractor will be required to provide equipment other than what is listed on the bid form, and will be compensated for the equipment, I.e., trench box, street sweeper, boring machines etc. Incidentals such as hand tools, signs, barricades and delivery of equipment should be included in the bid item for the equipment. The County can, at times, assist in making street sweepers available on the job; however, the County may void this contract if a licensed contractor cannot maintain his job in a safe, clean and responsible fashion.

GENERAL- The County anticipates that all bids received will be approved. The County will, as the need arises for service, evaluate the bids and determine the bidder that offers the lowest cost for the particular project to be accomplished considering the equipment, labor, etc. needed for that particular project. The only foreseeable time when the County will utilize the second and third bidder is when the task cannot be completed by the low bidder in the amount of time and with the equipment available to the contractor at that particular time. The County is not in the position to negotiate the contract pricing with the second or third bidder pricing, as the contractors state in their bid, the bid price is what the bidder will do the work for and is not negotiable by the County. **CONTRACTORS MUST NOT, EXCEPT IN COUNTY JUDGE DECLARED EMERGENCIES, PERFORM WITHOUT PREVIOUS COUNTY APPROVAL.**

AVAILABILITY- The nature of these services normally constitutes an emergency, and the bidder must begin the work within a minimum of seven (7) calendar days after notification. The work must be pursued in a full-time manner.

LICENSE- All contractors must, before doing any work for the County, obtain the appropriate license from the Arkansas Contractors Licensing Board; bids may be submitted without the proper license but it will have to be obtained before doing work for the County.

PLANS, ENGINEERING AND INSPECTION- The County will provide all plans, specifications and surveying necessary to complete the work. The County will provide construction inspection of the work.

LABOR- All days are for eight (8) hours. Authorization to work beyond an eight (8) hour day should be planned in advance. Unless an emergency exists, which should be stated in the requisition, work should be planned on an 8:00 am to 5:00 pm day. Work in an emergency event should be itemized; equipment shall not exceed 1.0 times the rental rate per hour of the eight (8) hour day rate and labor shall not exceed 1.5 times the labor rate. Overtime rates are based on an excess of 40 hours per week.

EQUIPMENT- Periodically, the County has a need to rent equipment without an operator. The County shall pick up equipment with fuel and returned full of fuel. Where applicable, freight costs are extra and should be reasonable. Hourly rates for the following equipment shall include repairs, lubrication,
