

Effective immediately on-site visitation is temporarily cancelled until further notice. Attempts are actively being made to notify all family / friends who presently have an on-site visitation scheduled; and visit transitioned to a free remote visit. Notifications are being made via email (at minimum), however phone calls are also being attempted. In addition, inmates who had visits scheduled are being notified, so they may also attempt further notifications to their family.

While on-site visitation is cancelled, upon request, remote visitations will be free for indigent inmates. Limited to one free visit per week. Inmates requesting a visit will need to submit a request to Lieutenant McFee. Notification to this effect is being placed in the Housing Units today.

Remote visitation remains available to the inmate population noon to 2100 daily. For new inmates in pre-classification or under medical quarantine, visitation will occur as follows:

- The goal is to arrange visits to ensure sub-dayrooms are not experiencing visitations at the same time as general population, limiting opportunity for cross contamination to occur.
- Lt. McFee will perform scheduling to adjust visitation for these inmates. Dayshift shift commanders will also receive training from Lt. McFee so they may also coordinate visits as needed.
- These visits may occur during the time blocks of **0800 to 1000; or 2300 to 0000 daily**. This way all other inmates may be locked down during this time. Family will be offered the option.
- Visitation stations will need to be disinfected between uses to limit opportunity of cross contamination.
